

DOES YOUR CEILING SPARK JOY?

A DISCUSSION ON INTEGRATED BUILDING SERVICES

This presentation focuses on bringing together multiple building services in one visually cohesive system. The Node system from Price features a full suite of aesthetically coordinated building services devices and is compatible with many ceiling types including plaster, metal, timber and fabric. Devices communicate with each other via the Total Room Control System, eliminating the need to adjust multiple systems and enabling easy setup and reconfiguration with the Node commissioning tool.

PRESENTATION TOPICS:

- + Node system overview
- + Sustainability through flexibility
- + Case studies
- + Communication protocols
- + Technical advantages of deep integration
